► **Available delivery methods:** Face-to-Face & Online Training

Introduction

Auditing is a core component of any management system, ensuring compliance, continuous improvement, and operational excellence. This 2-day online training equips participants with the skills and knowledge to conduct both internal and external audits under ABMS (Asset & Business Management Systems) standards effectively.

The course combines theoretical learning, case studies, and practical exercises to enable participants to plan, execute, and report audits confidently. By the end of the training, participants will be able to identify gaps, recommend improvements, and enhance the overall effectiveness of management systems.

Objectives

By the end of this course, participants will be able to:

- Understand the principles and standards of ABMS auditing.
- Plan, conduct, and report internal and external audits.
- Identify non-conformities and recommend corrective actions.
- Enhance organizational compliance and continuous improvement initiatives.
- Apply auditing best practices in real-world scenarios.

Why Attend

- Gain expertise in ABMS internal and external auditing processes.
- Learn to identify gaps and recommend actionable improvements.
- Improve organizational compliance and management system performance.
- Develop practical auditing skills applicable across industries.
- Network with professionals involved in ABMS and audit processes.

Target Audience

This program is designed for:
