

PRINCE2 AGILE® FOUNDATION + PRACTITIONER - AXELOS / PEOPLECERT, UK

“Master Agile Project Management with PRINCE2 Agile® for Successful Delivery”

Schedule

Date	Venue	Fees (Online)
07 - 10 Dec 2026	Online	USD 1,200 per delegate

► **Available delivery methods:** Face-to-Face & Online Training

Introduction

PRINCE2 Agile® combines the structured project management approach of PRINCE2 with the flexibility of Agile delivery, enabling organizations to achieve project success in dynamic environments. This 4-day online training equips participants with the knowledge and skills to effectively manage projects using PRINCE2 Agile® principles, practices, and techniques.

Through interactive workshops, case studies, and practical exercises, participants will learn how to tailor PRINCE2 processes for Agile delivery, manage stakeholder engagement, and ensure successful project outcomes. The course prepares participants for both Foundation and Practitioner level certification exams.

Objectives

By the end of this course, participants will be able to:

- Understand the principles, themes, and processes of PRINCE2 Agile®.
- Apply Agile concepts and techniques within a PRINCE2 project framework.
- Tailor PRINCE2 processes for Agile delivery environments.
- Manage project risks, quality, and stakeholder engagement effectively.
- Prepare for PRINCE2 Agile® Foundation and Practitioner certification exams.

Why Attend

- Gain expertise in combining structured project management with Agile flexibility.
- Learn to manage projects efficiently in dynamic and changing environments.
- Prepare for globally recognized PRINCE2 Agile® certification.
- Enhance project delivery success and stakeholder satisfaction.
- Network with professionals in project management and Agile practices.

Target Audience

This program is designed for:

- Project managers and team leaders
- Business analysts and project coordinators
- Agile practitioners and Scrum Masters
- Professionals involved in project delivery and change management
- Anyone preparing for PRINCE2 Agile® Foundation and Practitioner exams

Individual Benefits

Key competencies that will be developed include:

- Understanding PRINCE2 Agile® principles, themes, and processes
- Ability to tailor PRINCE2 processes for Agile environments
- Skills in risk, quality, and stakeholder management
- Knowledge of Agile techniques such as Scrum, Kanban, and user stories
- Preparedness for Foundation and Practitioner level exams

Organizational Benefits

Upon completing the training course, participants will demonstrate:

- Improved project delivery performance and efficiency
- Enhanced adaptability to changing project environments
- Better alignment of project outcomes with organizational objectives
- Strengthened capability to manage risks and quality in projects
- Increased success rate of Agile projects within structured frameworks

Instructional Methodology

The course follows a blended learning approach combining theory with practice:

- Strategy Briefings - Overview of PRINCE2 Agile® principles, processes, and themes
- Case Studies - Real-world examples of Agile project management success
- Workshops - Hands-on exercises in project planning, tailoring, and delivery
- Peer Exchange - Group discussions on challenges and lessons learned in Agile projects
- Tools - Templates and guides for project documentation, risk management, and Agile practices
