ENVIRONMENTAL SUSTAINABILITY

"Driving sustainable business practices for a greener, resilient future"

Schedule

Date	Venue	Fees (Face-to-Face)
28 – 30 Jul 2026	Doha, Qatar	USD 2495 per delegate

► **Available delivery methods:** Face-to-Face & Online Training

Introduction

Environmental sustainability is no longer optional; it is a strategic imperative for organizations worldwide. Implementing sustainable practices helps businesses reduce environmental impact, comply with regulations, and enhance long-term operational resilience.

This intensive three-day program equips participants with the knowledge and tools required to integrate environmental sustainability into organizational strategy. Participants will learn how to assess environmental risks, implement sustainability initiatives, and monitor progress toward environmental objectives.

Objectives

By the end of this course, participants will be able to:

- Understand the principles and importance of environmental sustainability
- Identify environmental risks and impacts within operations
- Develop strategies to reduce carbon footprint and resource consumption
- Implement environmental management systems (EMS) and compliance programs
- Monitor and report on sustainability initiatives
- Foster a culture of sustainability across the organization
- Align sustainability practices with global standards and frameworks

Why Attend

- Learn practical approaches to environmental sustainability
- Improve compliance with local and international environmental regulations
- Reduce operational risks associated with environmental impact
- Enhance organizational reputation and stakeholder trust
- Gain actionable insights for sustainability reporting and ESG compliance

Target Audience

This program is designed for:

- Compliance and governance professionals
- Environmental and sustainability managers
- Operations and facility managers
- Risk management professionals
- Strategy and corporate social responsibility (CSR) specialists
- Professionals responsible for environmental performance and reporting

Individual Benefits

Key competencies that will be developed include:

- Ability to assess environmental risks and impacts
- Skills in designing and implementing sustainability initiatives
- Knowledge of environmental regulations, standards, and frameworks
- Proficiency in monitoring, reporting, and continuous improvement
- Enhanced decision-making for sustainable business practices

Organizational Benefits

Upon completing the training course, participants will demonstrate:

- Reduced environmental impact and operational risks
- Improved compliance with environmental regulations and standards
- Better integration of sustainability into business strategy
- Enhanced corporate reputation and stakeholder engagement
- Data-driven decision-making for sustainability initiatives

Instructional Methodology

The course follows a blended learning approach combining theory with practice:

- Strategy Briefings – Principles of environmental sustainability and governance
- Case Studies – Real-world examples of successful sustainability initiatives
- Workshops – Hands-on exercises in environmental risk assessment and strategy development
- Peer Exchange – Group discussions on challenges, best practices, and lessons learned
- Tools – Templates for sustainability reporting, EMS implementation, and KPI tracking
